

Kayne Anderson Energy Development Company Increases Quarterly Dividend to 42 Cents Per Share

Houston, TX – (MARKET WIRE) – July 2, 2008 – (NYSE:KED) Kayne Anderson Energy Development Company (the “Company”) yesterday declared its quarterly dividend of \$0.42 per share for the period March 1, 2008 to May 31, 2008.

This dividend of \$0.42 per share represents an increase of 1.2% from the prior quarter’s dividend. It is anticipated that approximately 75% to 90% will be a return of capital. The final determination of such amounts will be made in early 2009 when the Company can determine its earnings and profits. The final tax status of the dividend may differ substantially from this preliminary information.

The dividend will be payable on July 31, 2008 to shareholders of record on July 18, 2008, with an ex-dividend date of July 16, 2008.

About the Company

The Company is a non-diversified, closed-end investment company that elected to be treated as a business development company under the Investment Company Act of 1940. The Company's investment objective is to generate both current income and capital appreciation primarily through equity and debt investments. The Company will seek to achieve this objective by investing at least 80% of its net assets together with the proceeds of any borrowings (its "total assets") in securities of companies that derive the majority of their revenue from activities in the energy industry, including: (a) Midstream Energy Companies, which are businesses that operate assets used to gather, transport, process, treat, terminal and store natural gas, natural gas liquids, propane, crude oil or refined petroleum products; (b) Upstream Energy Companies, which are businesses engaged in the exploration, extraction and production of natural resources, including natural gas, natural gas liquids and crude oil, from onshore and offshore geological reservoirs; and (c) Other Energy Companies, which are businesses engaged in owning, leasing, managing, producing, processing and sale of coal and coal reserves; the marine transportation of crude oil, refined petroleum products, liquefied natural gas, as well as other energy-related natural resources using tank vessels and bulk carriers; and refining, marketing and distributing refined energy products, such as motor gasoline and propane to retail customers and industrial end-users.
